Abhishek Rewale

FULL-STACK SOFTWARE ENGINEER / PRODUCT BUILDER

abhishek.rewale.2004@gmail.com
+91 77159 96714
Airoli, Navi Mumbai, India

PROFILE

Full-stack software engineer building production-ready SaaS products across interface design, secure backend workflows, testing, and deployment. Practical experience serving paying customers and translating complex requirements into clear, dependable product experiences.

EXPERIENCE

Independent Full-Stack Developer

Jun 2026 - Present

Self-Initiated SaaS Products

- Launched GymPro for two paying gym businesses; deliver ongoing enhancements, support, and fixes.
- Building Turfmate for market launch with transaction-backed reservation integrity and owner-scoped authorization.
- Own product architecture, authorization, automated testing, cloud workflows, and deployment end to end.

Frontend Developer Intern

Feb 2026 - May 2026

Springer Capital

- Contributed to a production product redesign and translated Figma specifications into responsive Next.js interfaces.
- Built Advisor, Operations, and Compliance dashboards with reusable React, TypeScript, Tailwind CSS, and Recharts components.
- Collaborated through Git branches, pull requests, code reviews, and structured design feedback.

SELECTED PRODUCTS

GymPro - Multi-Tenant Gym Management SaaS	Next.js, TypeScript, Firebase Tenant-isolated memberships, renewals, attendance, payments, server-authoritative reports, WhatsApp signup flows, biometric connector gateway, and emulator-backed tests.
Turfmate - Concurrency-Safe Booking SaaS	Next.js, TypeScript, Firestore Multi-owner public booking, configurable pricing, transaction-backed reservations, conflict checks, idempotent retries, owner authorization, and manual UPI verification.
Forever - Clothing E-Commerce Platform	MongoDB, Express, React, Node.js Storefront and admin dashboard with JWT authentication, REST APIs, product/cart/order workflows, Cloudinary, Stripe/Razorpay, and separate deployments.
